OFFICE HOURS:

8:00 A.M. to 5:00 P.M. Monday through Friday, all phone orders and inquiry should be made during this time.

TERMS:

C.O.D. net. All orders will be shipped C.O.D. unless payment is received with order or prior arrangements have been made for open account.

OPEN ACCOUNT:

Net thirty days open account may be established by well rated firms subject to information supplied by customer (we do not subscribe to Dun & Bradstreet). Submit three credit references including your bank complete with addresses so our routine credit check may be made. All open account purchases are due by the tenth of the following month and become delinquent thirty days from date of invoice. A service charge of 1½% will be charged after 30 days from invoice date.

DELIVERY:

Whenever possible, orders will be shipped complete the same day received. In all other cases, orders will be processed according to buyer's instructions. Short items will either be back ordered or cancelled.

BACK ORDERS:

Items placed on back order will be held on back order and will be shipped as soon as available, or until customer cancels back order.

SHIPPING:

F.O.B. our plant. Specify method of shipping with your order (Parcel Post, U.P.S., Truck, Railway Express, Air Freight, etc.) If no shipping instructions are received with order we will ship by the most reasonable means in accordance with the size and weight of your order.

FREIGHT:

Free for orders over \$300.00 dealers cost

No freight will be paid except for returned merchandise deemed defective by manufacturer. Method of shipping will be at Bill Wirges' discretion.

CLAIMS:

Title to merchandise passes to customer on delivery to common carrier. Delivery of merchandise in good condition is the responsibility of the carrier and all claims for damage or shortage should be made with the carrier immediately.

RETURNS:

Write for authority before returning merchandise. We will not refuse any reasonable claim. However, we reserve the right to make a 10% handling charge on all parts returned for credit or refund unless defective or shipped in error.

WARRANTY:

All merchandise manufactured by Bill Wirges, Inc. is fully guaranteed against defects in material and workmanship only. Final decisions will be made in a just and prompt manner. Replacement will be limited to parts and does not include labor claims of any type. All merchandise distributed by Bill Wirges, Inc. is guaranteed in accordance with the manufacturer's own terms of warranty.

CORE CHARGE:

A core charge will be made on all items sold on exchange basis unless old cores are received with order. Credit or refund will be issued promptly upon receipt of cores. Please state invoice number when returning cores for credit.

PRE-PAID:

In addition to merchandise cost please add the following amount to cover shipping and handling costs.

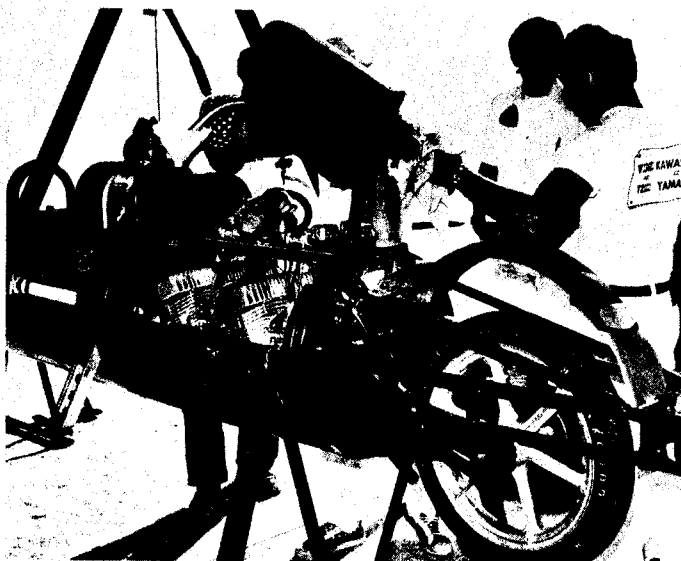

\$1.00 to \$51.00 add \$1.50
\$51.00 to \$101.00 add \$2.00
\$101.00 to \$151.00 add \$2.50

THE KAWASAKI PERFORMANCE SPECIALISTS:

A lot of people think it's funny that Bill Wirges just makes performance accessories for Kawasakis. They think he could sell a lot more if he made them for all bikes. They're probably right. But, only by concentrating his total R & D effort on Kawasakis can Wirges consistently make the very best accessories you can hang on a Kawasaki. This dedication to excellence pays off for you. Every Wirges performance accessory has been through many hours of testing. "Pretty good" designs are scrapped. Only the best get the Wirges name. Expansion chambers, for instance, are tested against stock and a number of competitive brands, on every Kawasaki model. And they don't go into production until the Wirges design outperforms everything else available. When they do go into production, they're often made of heavier material. They get smooth, even welds. A tough, long-lasting finish. And inserts you can replace quickly and easily. Another big advantage you get is Wirges specialization keeps tooling costs low so you don't have to pay a bigger price for better performance.

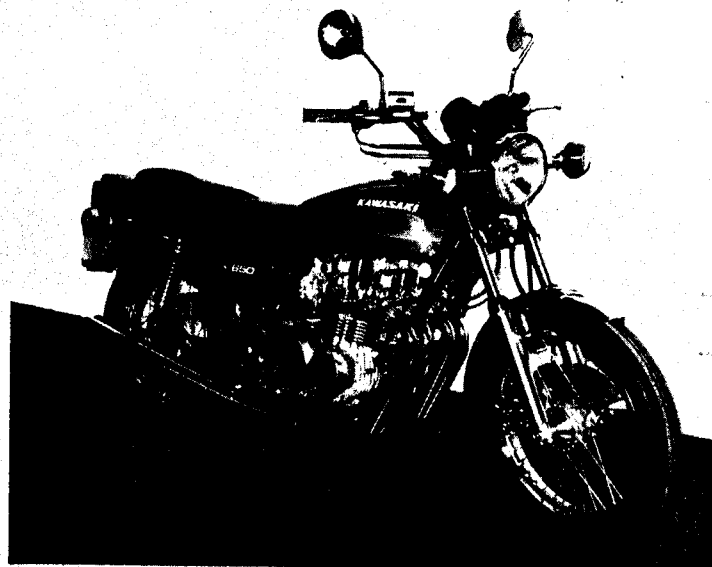

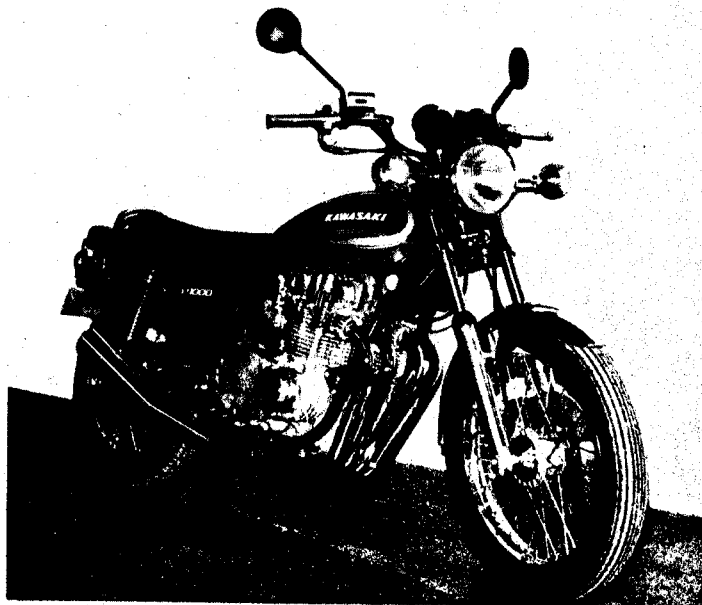

Wirges dynamometer testing provides tough preliminary tests of every new engine performance accessory against other well known makes.

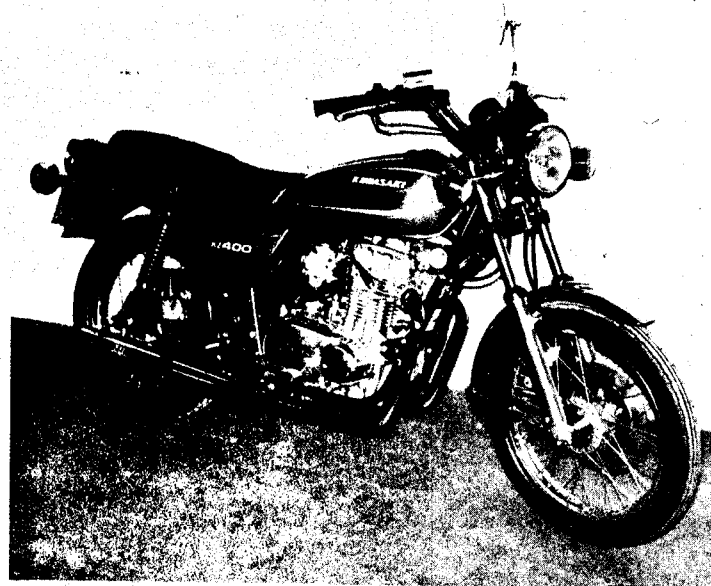

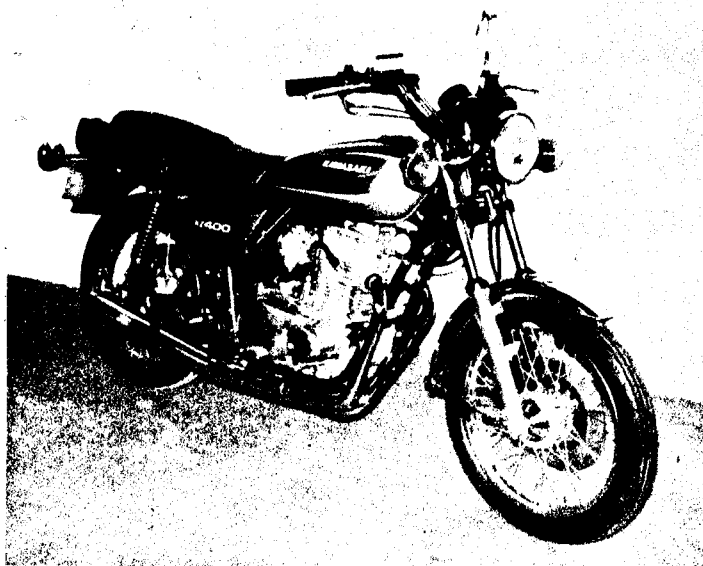

Wirges own people and top competition riders around the country prove out Wirges designs on the street and in competition. Wirges accessories not only perform, they hold up to give you lasting satisfaction. Compare welding and finishes while you're at it.

4 Stroke Exhaust

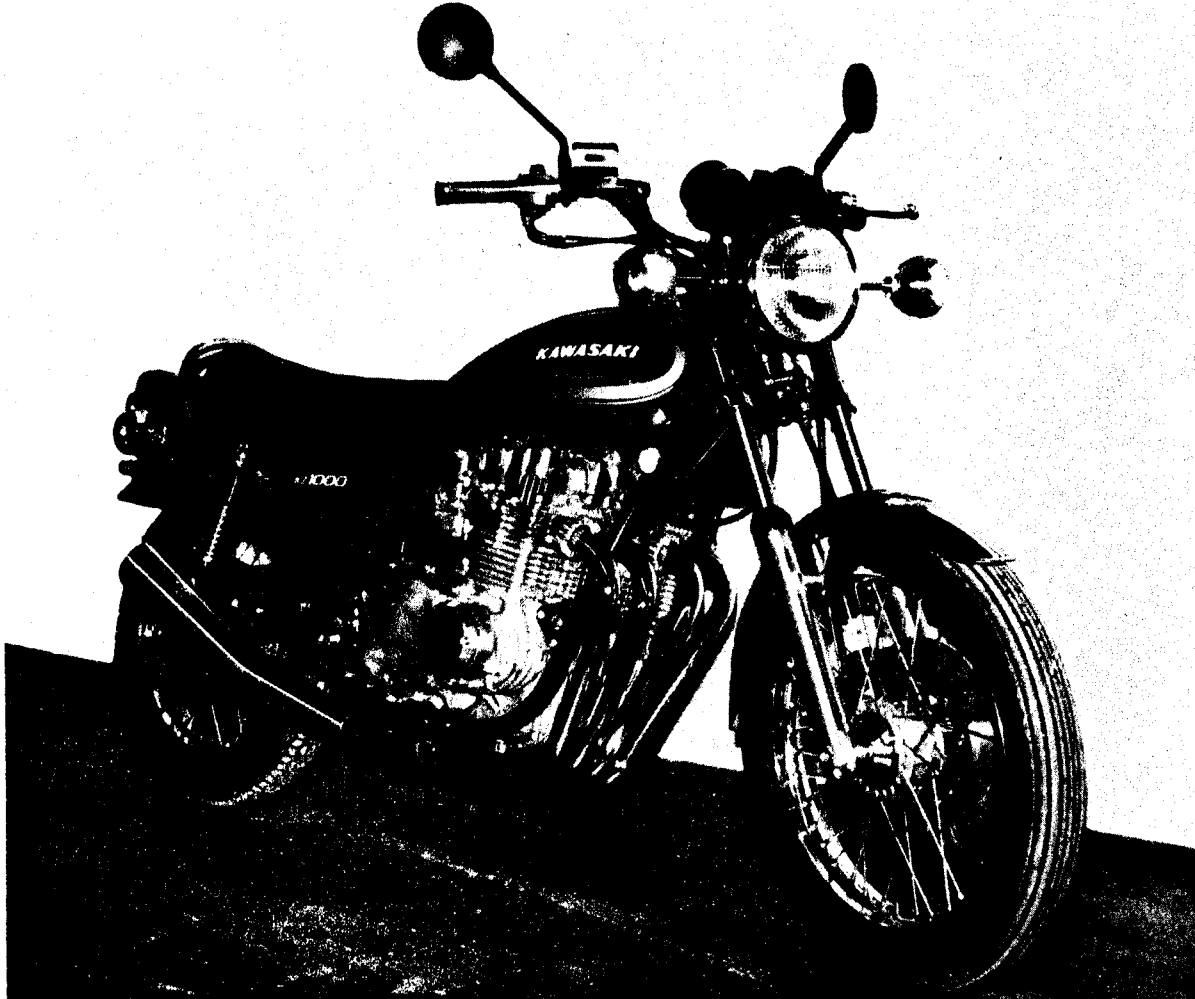

Bill Wirges
INC.

Bill Wirges, Inc. was one of the very first to build Kawasaki 4 stroke exhaust systems. Bill had the new Z1 - 4 cylinder DOHC engines and bikes when very few had even seen them. Through many hours of dynamometer and track testing, **Bill Wirges** developed the horizontal in line collector for maximum exhaust scavaging, which gives ultimate horse power and torque. With the in line collector, you also get that all important ground clearance which other systems sacrifice with their stacked pipes. Wirges systems are made from the highest quality materials and assembled with air craft quality tig and heli-arc weld. All systems are finished in either a baked on high temperature paint or Wirges' exclusive Dual Nickel Chrome. Wirges exhaust systems have the reputation for the ultimate in Craftmanship, Styling, Precision Fit and Maximum Performance.

Kawasaki Two Stroke Triple Total Performance Chambers

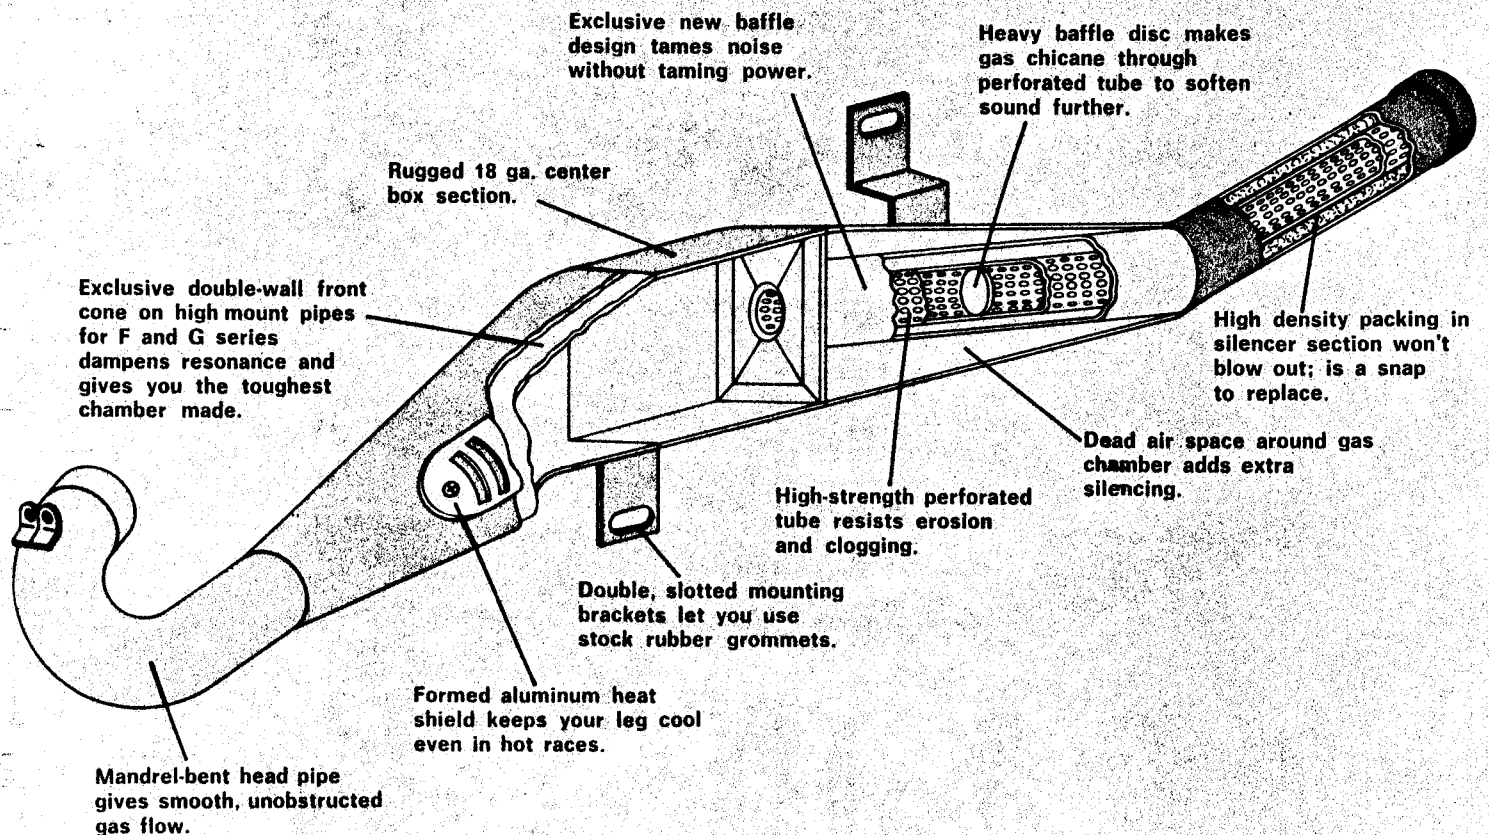

Total performance racing expansion chambers are the same design used on Bill Wirges, Inc. World's Fastest Kawasaki streamliner and many other record setting triples. Designed to get ultimate power from Kawasaki triple racing engines. Available in completed systems with high temperature paint ready to bolt on or kit form to be fit to your own racer.

H1-MHLU
H1-MHLU kit

H2-MHLU
H2-MHLU kit

The first high-performance chamber with sound-deadening rear-cone baffle.

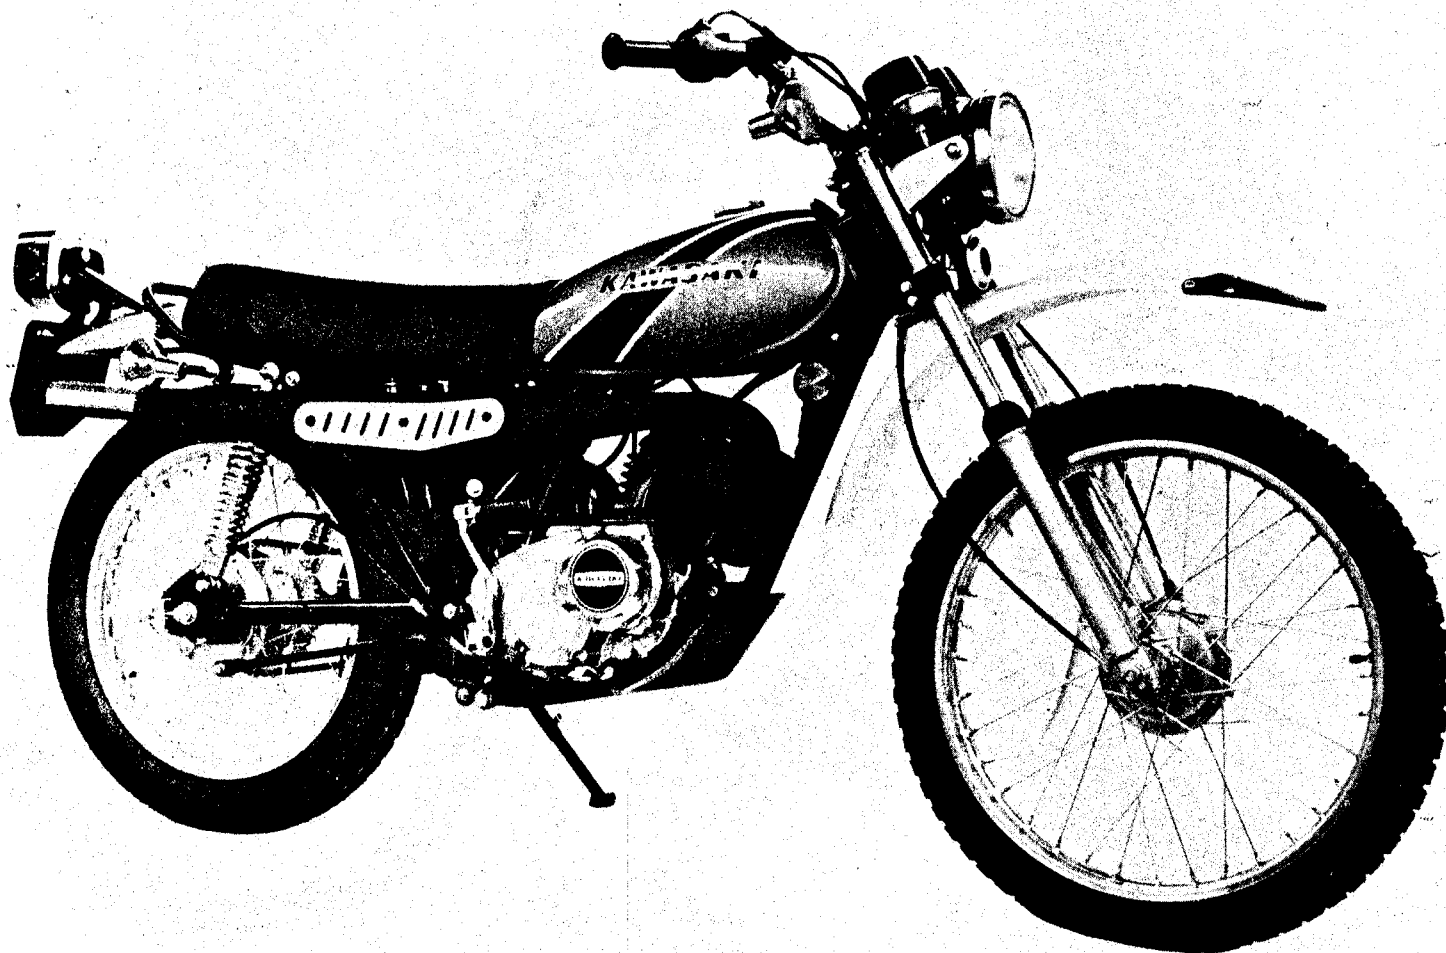

Wirges expansion chambers have long been a favorite of leading Kawasaki riders. Because they go. And they last. Now, after four years of development and testing, Wirges has found a way to cut noise dramatically without taking away performance. The solution is a completely new

baffle tucked into the rear cone just ahead of the silencer section. The results are new highs in performance curves and new lows in sound emission. A new balance of performance and quiet you can't get anywhere else.

High Mount Silenced Expansion Chambers

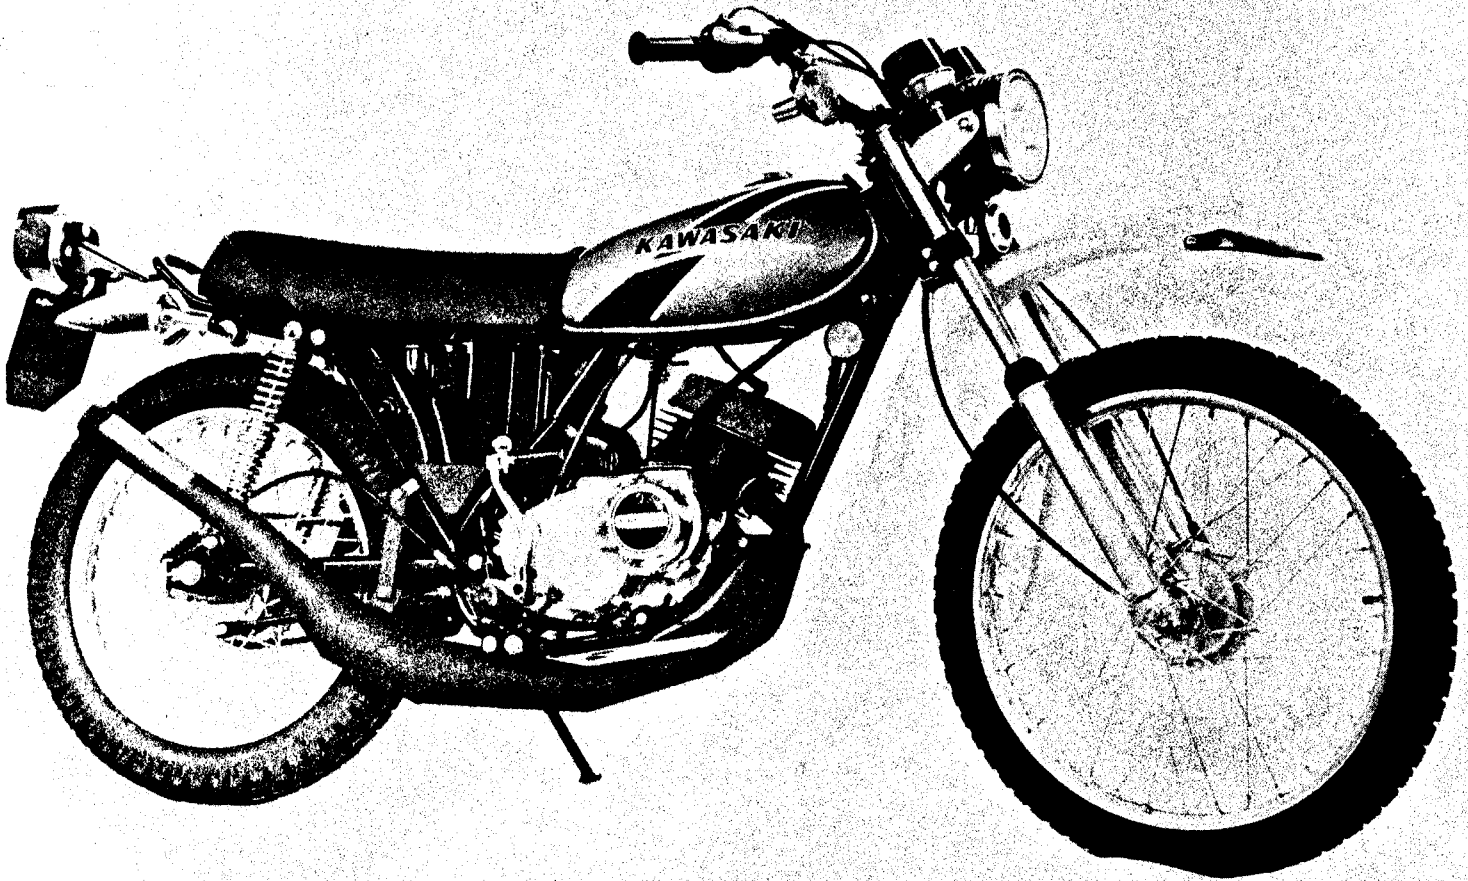

Single Cylinder Two Stroke Expansion Chamber High Mount

The ultimate bolt on performance accessory. Up to 25% increase in power and torque. Carburetor rejetting usually necessary.

Clutch Release Thrust Bearing

Stop costly clutch rod replacement. High speed roller bearing ends scoring and galling. Make clutch disengagement easier. A must for high-performance engines.

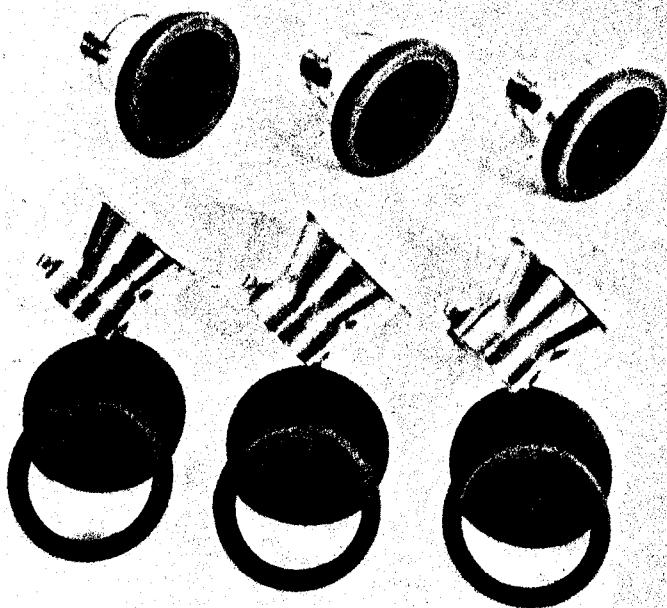

See Price Sheet for Part Numbers.

Low Cafe & Drag Bars

Short backswept bars finished in exclusive *Bill Wirges, Inc.* Dual Nickel Chrome. Ideal for cafe racers and drag bikes.

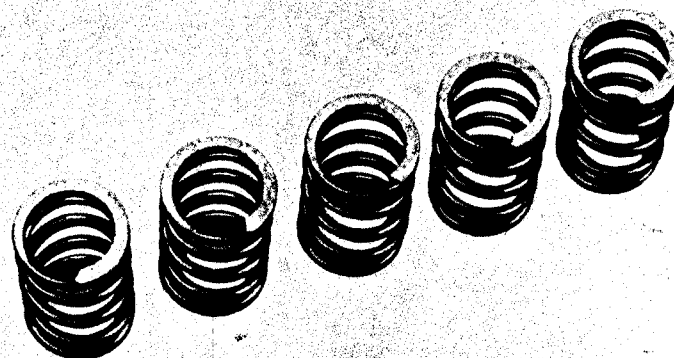

See Price Sheet for Part Numbers.

Intake Velocity Stack Kit

Polished high-performance flare ram tube design. Available unfiltered for maximum performance or with removable filter pad and screens. Spun aluminum bodies.

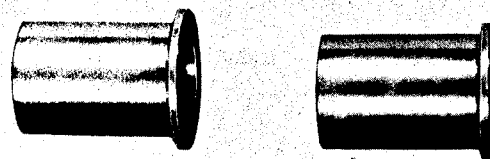

See Price Sheet for Part Numbers.

Heavy Duty Clutch Springs

Replace stock springs with stiffer Wirges springs and run stronger off the line. End clutch slipping. Puts your power on the ground.

See Price Sheet for Part Numbers.

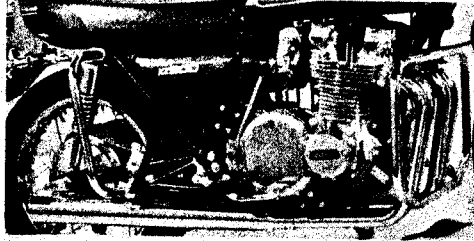

Swing Arm Bushings

Replace fiber bushings with strong precision machined brass bushings. Helps cure the high speed wobbles and poor handling.

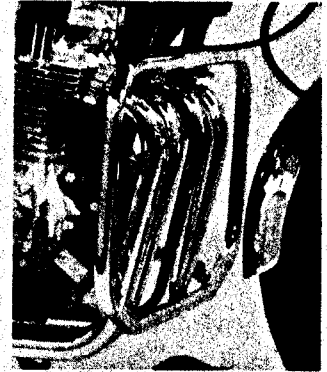

See Price Sheet for Part Numbers.
